

Matteo Pasin (b. 1986, Treviso) is a photographer, videoartist and post producer based in Milan. In 2011 he graduated from University Ca' Foscari of Venice in Philosophy. He studied Photography at Cfp Bauer in Milan concluding the course in 2015 with an internship at Studio Armin Linke in Berlin. He worked for some years for Studio Toja and Miro Zagnoli until working today as a freelancer specialized in post production and art documentation.

Artist Statement

His personal research (un)focuses on moving images and it's conceived as a lens based neo-materialist phenomenology that records cinematographic samples of flowing light and vibrant matter. Attempting to unlearn to recognize and to relearn to gaze, these videos open the iris diaphragm towards extrafoveal unforeseen embryonic apparitions.
